PROFILE

System Engineer focused on Microsoft infrastructure, identity and automation for enterprise clients of a managed service provider.

Automates recurring administrative tasks consistently with PowerShell, including a self-developed module for server lifecycle automation. Looking for a fully remote position in Microsoft infrastructure and modern workplace.

Career changer: after twelve years in scaffolding, moved into support in 2022 and rose from 1st level support to System Engineer in under three years.

CORE COMPETENCIES

Cloud & Identity

Microsoft 365 (M365), Microsoft Entra ID (Azure AD), Entra Connect, hybrid identity, Exchange Online, Exchange Hybrid, Microsoft Teams, OneDrive, Microsoft Intune

Infrastructure

Active Directory, Group Policy (GPO), Windows Server 2016 / 2019 / 2022, DNS, DHCP, file and print servers, NTFS and share permissions, Remote Desktop Services (RDS), RD Connection Broker, FSLogix

Virtualisation, Backup & Monitoring

VMware, Hyper-V, Veeam, PRTG

Automation

PowerShell (scripting and module development), Docker, self-hosting

Network & Security

VPN troubleshooting (Sophos Connect), network troubleshooting, implementation of IT security policies

Tools & Processes

ServiceNow, Remedy, Citrix Director, Remote Desktop, incident management, technical documentation

KEY PROJECT

Rebuilding the IT infrastructure after a cyber security incident

Care sector · 64 sites · 2025 – 2026 · Skaylink GmbH

- Developed a browser-based onboarding generator that produces PowerShell scripts for user provisioning (multi-UPN, cloud hard match)
- Migrated user accounts from cloud-only to a hybrid setup (Active Directory / Entra ID) including OU design and a group and permission concept
- Set up VPN access for sites and remote users and rebuilt the print server
- 2nd level support for Microsoft 365, RDS / session host environments and client hardware

PROFESSIONAL EXPERIENCE

System Engineer | Skaylink GmbH

03/2026 – present · Promoted from IT Service Specialist

- Administration of complex Active Directory structures including GPO, DNS and DHCP for several enterprise clients
- Implementation and administration of Microsoft 365 and Azure services, including hybrid identities via Entra Connect (among them hard-match workflows and recovery after a DKM key loss during a server migration)
- Operation and fault analysis of Remote Desktop environments: RD Connection Broker registration, FSLogix profile handling, session host incidents and Outlook MAPI connection limits
- Development of a PowerShell module for server lifecycle automation (VM provisioning and decommissioning across VMware and Hyper-V, integrated with Active Directory, Veeam and PRTG)
- Automation of recurring bulk tasks with PowerShell, for example password resets and user deactivation across multiple organisational units
- Analysis of Intune app deployment failures and Teams add-in registration problems on session hosts
- Support at 2nd and 3rd level, incident management and resolution of escalated incidents
- Infrastructure monitoring, proactive troubleshooting and the creation and maintenance of technical documentation
- Implementation of IT security policies at the client site

PROJECTS

Self-Hosted Homelab

Docker stack in continuous operation

37 containers without a single open port forward: access through Cloudflare Tunnel and Authelia 2FA, encrypted restic backups to two targets with restore tests, and push security alerts that block attacker IPs at the Cloudflare edge via n8n.

Price Alert Tracker

Open-source web application (v1.7.0)

Self-developed web application for automated price monitoring with 13 languages, selectable colour themes, Windows toast notifications, e-mail alerts and drag-and-drop group management. Self-hosted at preisalarm.erdembasar.de, source code on GitHub at erdem-basar/price-alert-tracker.

EDUCATION

Fachoberschulreife with qualification for upper secondary education

Hauptschule Welheim, Bottrop · 2002 – 2007

LANGUAGES

German, English, Turkish

IT INTERESTS

Self-hosting and Docker, home networking, automation, cloud infrastructure

PROFESSIONAL EXPERIENCE (CONTINUED)

IT Service Specialist | Skaylink GmbH

06/2025 – 03/2026

- Administration of Active Directory (users, groups, OUs, group policies) as well as user and permission management
- Setup, administration and maintenance of file servers (shares, NTFS and share permissions)
- Administration of print servers including printers, drivers, queues and PowerShell-based port management
- Configuration of scan-to-email and scan-to-folder on MFP systems (Toshiba, Ricoh, Konica Minolta, Develop)
- Error analysis and troubleshooting in server and client environments, including Sophos Connect VPN
- PowerShell scripting to automate administrative tasks
- Direct point of contact for clients and users at 1st and 2nd level support through the ticketing system

Customer Service & Support Center Agent | 1&1 Versatel

01/2025 – 04/2025 · Essen

- Handling customer enquiries relating to service faults and monitoring tickets in the ticketing system (Remedy)
- Communication with customers and partner companies about the status of fault resolution
- Commissioning and coordinating field service technicians and escalating to the responsible specialist teams

1st and 2nd Level Support, BNP Paribas project | everience GmbH

05/2023 – 09/2024 · Essen

- Qualified intake and independent handling of incidents and requests by phone and ticketing system (ServiceNow)
- Troubleshooting across Windows, Microsoft Office, Exchange, Citrix Director, VPN, network and printers
- Active Directory account administration as well as user and role management in various systems
- Documentation and tracking of customer requests and adherence to defined problem-resolution processes

Call Center Agent | SutterDialog GmbH & Co. KG

11/2022 – 04/2023 · Essen

- Telephone advice and support for technical enquiries as well as recording and maintaining customer data

Scaffolder | Bilfinger Arnholdt GmbH, GFG Dynamic Gerüstbau GmbH

07/2017 – 07/2022 Bilfinger Arnholdt · 2010 – 2017 GFG Dynamic · Gelsenkirchen

- Erection of support and suspended scaffolding including substructure and basic formwork, maintenance, storage and transport of scaffolding components
- Working with site managers and other trades on large construction sites
